

CONTRACT SERIES TWO

Medium Open Roller Shade

12v Low Voltage / Solar / Li-Ion Motorized Control

The precision engineered Rollease Acmeda Contract Series Two is the culmination of 40 years of engineering experience offering the newest technology with best in class aesthetics and industry leading features. The CS2 Medium Open Roll system, with a max width of 120" (based on a 120" drop) up to 92 Sq.Ft. before linking options with the ability to link multiple panels at angles up to 90°. This precision engineered system, integrates a powerful, yet quiet motor, directly in the tubing of the roller which is powered through plug in transformer or hardwired by an EC with connector plug. The sleek, compact form with consistent bracket, clutch and OD tube diameter fosters a clean, consistent look across of all possible shading sizes in its range.

Features:

- With a max width of 120" (based on a 120" drop) up to 92 Sq.Ft. before linking options.
- Linking options include in-line, angled up to 45° and up to 90° coupling.
- Industry leading narrowest equal light gap of 1/2" per side.
- Automate line of low voltage (12V) motors from 2 NM to 10 NM for large applications with ultra-quiet operation and ARC bi-directional communication.
- Optional solar panel for environmentally forward, energy efficient constant system charging.
- Self-locating installation feature with 10mm idler extension (1mm increments)
- Fabric Spline feature provides positive attachment of fabric to tube.
- Accepts standard and reverse roll applications

MOTOR OPTIONS

Automate Wall Switches

[Hand held or wall mounts]

DC Power Panel

[Provides power for 18 DC ARC motors]

Automate Solar Charger

[energy efficient]

Automate ARC Repeater

[Extends the ARC signal]

ARC Relay Module

[Smart System Interface]

Automate Pulse Hub

[Smart Phone Control]

FRONT & SIDE VIEW

SCHEMATIC

BOTTOM RAIL OPTIONS

SYSTEM UPGRADES

5" Pocket [for hidden recess mounts]	L & I Clips [for hidden recess mounts]	Edge Side Channels [for improved light blackout]	Internal Wire Guide [supporting complex shading systems]	Fabric Spline System [secure attachment of fabric on a roller shade]

For more information about our Upgrade solutions, see our UPGRADE SPECIFICATION sheets.
