

Contract Series

EDGE SIDE CHANNELS

Rollease Acmeda's EDGE SIDE CHANNELS compliment a range of fascia and open roll shading systems and control options with improved performance functionality and aesthetics. Designed to work with fully enclosed, partial fascia, or open roll shades, they are compatible with the most commonly used Contract Series One and Two medium roller systems. Using EDGE SIDE CHANNELS improves the energy efficiency of any compatible system as well as enhances light blockage in audio visual and bedroom conditions.

AESTHETIC FEATURES

- Minimized light gap and shadow
- No visible screws

PRODUCTION & ASSEMBLY FEATURES

- 2 piece EDGE side guides improve face and recess installations
- Easy and effortless locking mechanism for the cover

FUNCTIONAL BENEFITS

- Concealed fabric brushes offer smooth quiet operation
- Improved energy efficiency of systems
- Plastic top funnel protection to protect fabric edges
