

# CONTRACT SPECIALTY

## BOTTOM UP ROLLER SHADE

120v AC Powered Motorized Control

The Rollease Acmeda Contract Bottom Up Shading System is an innovative system, perfect for ground floor or office applications where privacy and light harvesting are required. Bottom Up shades let the natural light in from the top of the window while shading the bottom section for privacy and solar control. Utilizing Contract Series One manual or motorized / automated systems combined with an innovative self-levelling hem bar adjusting system which limits service calls and ensures a long, trouble free life of the system.

### FEATURES

- Automate motor Ultra-quiet operation with ARC bi-directional communication; from 6NM to 50 NM motor options available.
- Standard AC hardwired power.
- Newly designed Heavy Duty Idler assembly consists of Teflon and glass filled nylon to eliminate noise and resist wear and tear for the life of the shading system.
- Powder coated steel box brackets 1/16" thick
- Wall mounted, desktop and stylish handheld controls available
- Optional integration with many popular automation systems.

### CONTROL OPTIONS
