

Motorized Outdoor Shading Solutions

Our Zipscreen system is the premier fabric tensioning and retention system which is a perfect solution for both interior and exterior applications.

Zipscreen is the ultimate exterior shading solution for any outdoor area or window; offering privacy and protection from the sun, wind, rain, and insects. For interior applications, Zipscreen provides an unparalleled aesthetic for standard, pitched, skylight, angled and non-traditional shapes and applications. Your custom designed system can be made in widths up to 22.9 feet, drops up to 16.4 feet, and a max area of 376 feet, offering a solution to fit almost any area.

Features

- Sleek and contemporary square headbox.
- Adjustable side guides to enable installation in out of square areas.
- Exterior grade powder coated finish.
- Hidden side retention system to keep fabric secure in channels.
- Robust hardware up to 22.9 foot widths.
- Choice of open bracket or fully enclosed cassette headbox solutions.
- Optional Ultra-lock to perform one action lock and tension.

Minimum Width Dimensions

- Crank - 500mm (19.7")
