# Control options

## Chain Safety Solution

The Contract Series roller shades can be paired with a Chainhold tension device to provide a child safe mechanism for chain operated shades, which ensures compliance with the ANSI/WCMA A100.1-2022 safety standard. The durable construction and sleek engineered design ensures smooth, reliable performance.

## Spring Operated Solution

Easy Spring Air is a chain free child safe roller shade, effortlessly controlled by raising or lowering the bottom rail to the desired position. The premium minimalist design of the Easy Spring Air has eliminated the need for chains or wand devices.

## Battery powered Solution

Wire free motorized shades are quiet, rechargeable and offer premium automated control at your fingertips via our stylish range of remote controls. The patented design conceals an antenna cable, leaving no visible wires. Stand out features include soft stop technology with slower, quieter closing operation and a battery check function on the remote control.

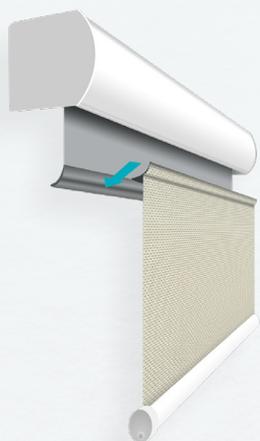

# Fabric options

## Light Filtering & Blackout Solution

Kleenscreen features Sanitized® which inhibits the development of bacterial odors as well as the growth of mold and mildew.

This unique antimicrobial hygiene feature enhances the performance of your shades for comfort and peace of mind. Kleenscreen features 8 contemporary colors.

A daytime light filtering fabric is available in 1,3 & 5% openness and a nighttime Blackout version offers 100% privacy.

## Fabric Swap Solution

A fast and easy way to change the fabric on your roller shades without uninstalling the tube of the shade. This ensures longer term use of hardware and operating solutions that are growing in complexity and cost, while offering the ability to refresh the interior of your home.
